17:30	Summary and Closing
	Dinner evening

WAKO have a bright future!

The second module in our WAKO GameChanger program was successfully organized in Budapest, Hungary. This was the first physical module with our 15 great talents from 15 countries. We had our first introductory module in June. At that first module we introduced WAKO and we gave the participants, selected into three teams, some problem statements.

They presented solutions on problem statements and everybody was involved and engaged – As a team.

We had a lecture about good governance followed by breakout sessions and presentations of solutions.

We had involvement from the IOC and from Hungarian NOC Athlete Committee. Last but not least, we were honored to have a lecture from the IOC member from Hungary and former President of Hungary, Pál Schmitt, making a presentation about sport and politics.

What a day, what a group, what a future in WAKO including both genders from 15 countries from 3 continents. Our President asks us constantly about getting output of what we do. Roy, we do get output.

Espen Lund and Zsolt Moradi

The WAKO GameChangers Team

The Team presentations - Solutions to WAKO on 3 problem statements

Developing various disciplines of kickboxing on different continents

WAKO Continental Participation

PROBLEM STATEMENT

How do we improve with the low participation in female in certain continents at athlete, referee and continental board level?

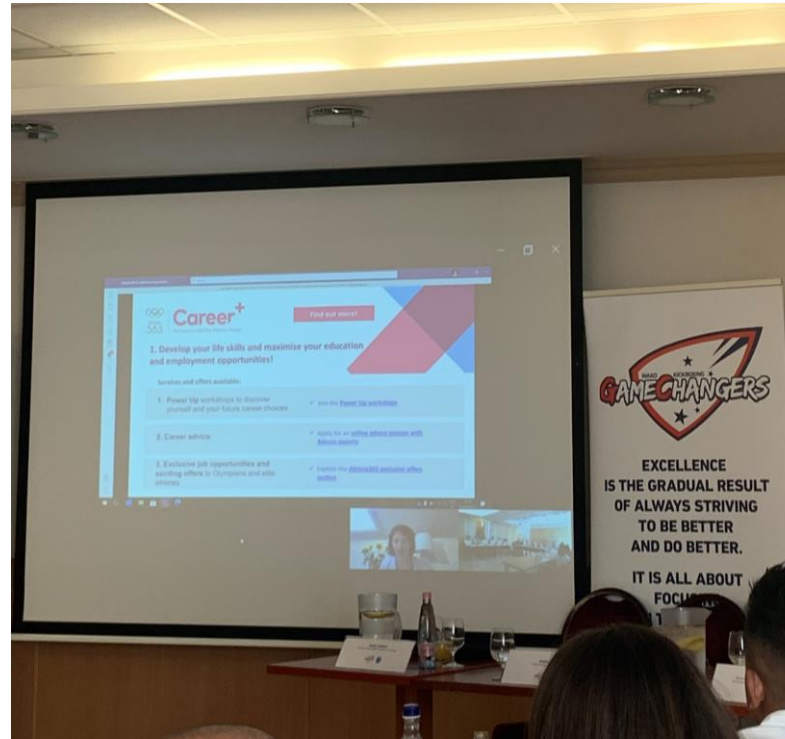

Lecture of Mr. Pál Schmitt Hungarian IOC Member

Lecture of IOC Athlete Support - Chantal Buchser Kelley

Lecture of Hungarian NOC Athlete Committee - Zsofia Csonka

The importance of focusing of our future leadership

Engagement, joy, passion, strategic, caring, leadership, no bindings, solution oriented, bright minds, gender representation, worldwide
